

# We are so happy to welcome you to the Fourth Grade!

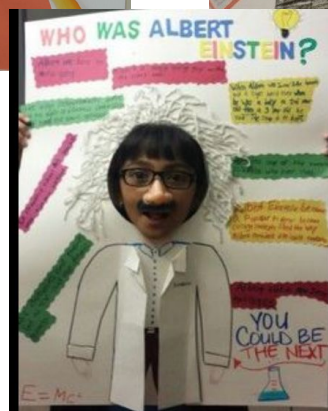

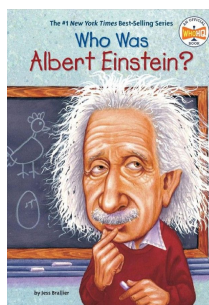

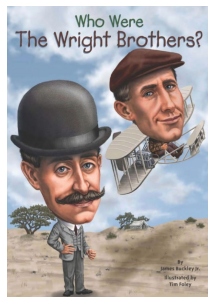

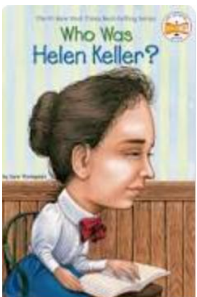

We believe in the importance of developing a lifelong love of reading, and that children should be reading all year long. Summer reading helps students to become successful, independent readers. Children should read for at least 20 minutes each day. Experts agree that children who read during the summer months gain reading skills while those who do not often slide backwards (RIF).

The following are the two required readings for the summer:

**1-*The One and Only Ivan*** by Katherine Applegate. A timeless novel about friendship and hope. Inspired by a true story of a gorilla named Ivan and his journey to freedom. Please complete the attached worksheets as you are reading along with the novel.

**2- One Book from the *Who Was...? Biography series***, by various authors. The Who Was... series of biographies are an interesting way for children to learn about important people in history. The text is easy to read, detailed enough to provide insight into the person's life, and full of black and white illustrations to help children remember visually what they read. Once you have completed the reading assignment, you will design and create a visual display of your selected person. Your display should have at least 5 facts about your famous person.

Thank you in advance for your support—have a wonderful, safe, restful, book-filled summer! See you in August!
